Digital Film Production BA

EXAMINATIONS TAKEN

(Epping Forest College) Creative Media Production

RECEIVED GRADES

1st Year: Distinction* Distinction*

2nd Year: Merit

(Ravensbourne University) Digital Film Production

First with Honours

EXPERIENCE

June 2018-September 2021 – Chigwell Tours Videographer

I was a videographer for a tourism company. I was in charge of making the main marketing videos showcasing their tours to a specific brief. As part of the process, I planned, filmed, edited and colour corrected/graded the footage using Premier Pro. I was also in charge of transferring and storing all media so that they can be easily accessed for the future.

3rd - 6th February-2020 – Personal Heroes short film DOP (2020)

I was DOP on a short film where the style was a mockumentary. I had full creative control over the documentary alike aesthetic and filmed most of it shoulder mounted with minimal but controlled lighting. Though I still set up interview situations containing full controlled lighting. Additionally, I worked closely with the director, lighting team, sound department and a second camera op throughout in order to create a fine line between chaos and control.

1st - 31st August-2017 – Dead Ringer film (2018)

Due to winning a competition, I managed to work as 2nd AC on a small budget feature film. I sync-clapped over 400 shots of the film. My other tasks included setting up an external directors display, helping to move equipment safely, helping to set up and pack away camera and lighting equipment and taking camera notes. Furthermore, I coordinated with the sound and lighting departments.

INTERESTS

I am very interested in video production, constantly exploring it by making short travel videos and corporate tour videos.

I am interested in mountain biking often cycling through my local forest trying out new routes and challenging myself with hills and technical terrain
